

8th 1-3

#1-20

plug the numbers in for the variables:

$$x=15 \text{ and } y=26$$

ex.) $x+y-9$

$$15+26-9$$

$$41-9 = 32$$

make sure you follow the order of operations when solving

#21-25

Write the expression - choose your own variable/letter

ex.) twelve points more than the Falcons Scored

$$p+12$$

ex.) four times a number decreased by 6

$$4n-6$$
